1. I would like to propose a concession for nonconforming item(s) as follow :

☒ Product
 ☐ Method
 ☐ Material
 ☐ Machine
 ☐ Others:

Nonconforming report or issue date:

Concession content:

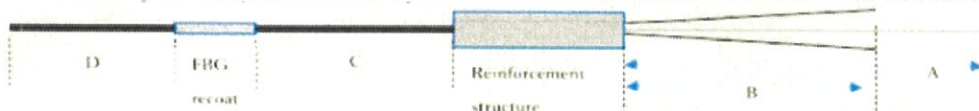

During manufacturing, we found 1 product (Backward CMB) but measuring M2 data with Forward CMB stepping=> lack of M2 data.

To ship this product, we need re-measure M2 data with correct step(Backward CMB). However, after we re-measure M2 & appearance, the signal fiber length is shorter than spec, detailed as below:

Scope affect:

No	Product code	Serial number	Item name	Spec
1	FPC0005	2400381412-00027	Cezanne backward pump CMB(MPC-I-007)	SPC3-10766(1)

Length of product after re-measuring M2 :

Type	Description	Spec (mm)	Actual length(mm)	Judgement	Remark
A	Signal fiber length	570-590	549	NG	Customer accept this case
B	Pump fiber length	1060-1260	1200	OK	-
C	Recoat-Reinforcement length	920-1060	1056	OK	-
D	Recoat-End fiber length	1400-1600	1414	OK	-

After discussion with customer, they accept for shipping this product with shorten signal fiber length.

2. Reason

- ☐ Effect to delivery schedule
☐ Not required in customer Spec, but required in FOV
☒ Others (Detailed description): The product shorten signal fiber can use in FPL, Increasing output quantity and reduce FI cost.

3. FOV's Approval:

- ☐ Not accept, follow the relative procedure
☐ Internal concession
☐ Need inform to customer
☒ Need approval of customer

QA confirmed (if any): 7

Approved by:

Date: 20 Sep '24

Date: 20 Sep '24

4. Customer's approval:

☒ Accept
 ☐ Not accept
 ☐ Other request:

Customer's comment:
